

I am totally against the NAB petition 04-160. XM radio's traffic and weather broadcast , far outshine any local traffic and weather that I have ever heard. To me, it is a safety and convenience item, that I pay for. I could listen to the regular stations if I chose to, for nothing. I have three XM radio's. I bought them and pay for them on a regular basis. I believe it is legal and a constitutional right. Please oppose this petition on my behalf. Thank You. PS. Most commercial stations do their traffic so fast, that you hardly benefit from it anyway.
